COVID-19 Webinar Series | Thursday April 23 at 12pm
CEST via WebEx

Current Evidence on COVID-19 Epidemiology

Insights on:

- Current evidence on the COVID-19 epidemiology, including the agent and the transmission routes
- COVID-19 clinical presentation, severity, and mortality in the general population and among different groups
- Risk factors for disease severity including different treatment regimes for other conditions
- Interpretation of the epidemiological evolution of COVID-19 globally and in specific contexts including countries at the beginning, peak and end of the epidemic curve

shared by leading expert

Professor **David L. HEYMANN,**

**Professor of Infectious Disease Epidemiology, London School of
Hygiene and Tropical Medicine**

Thursday, April 23, 2020

12:00 pm | Central European Summer Time (Madrid, GMT+02:00) | 45 min
