Presents

COVID-19 Webinar Series | Thursday 4<sup>th</sup> June at 5pm  
CEST via WebEx

### The Institute for Health Metrics and Evaluation (IHME) COVID-19 model

The Institute for Health Metrics and Evaluation (IHME) has developed a [model](#) initially geared to helping hospitals plan for a surge in demand (e.g., beds, ICUs, ventilators) to fight COVID-19. Early May 2020, it was expanded to account for factors that could contribute to or contain the spread of the disease and account for the possibility of resurgence.

With many locations passing their first peak of COVID-19 deaths, this webinar will provide insights on usefulness of models for how best to prevent and manage a resurgence of the disease.

**Professor Dr Ali H MOKDAD**

**Professor of Health Metrics, Institute for Health Metrics & Evaluation (IHME)**

**Chief Strategy Officer for Population Health, University of Washington**

**Thursday, June 4, 2020**

5:00 pm | Central European Summer Time (Madrid, UCT/GMT+02:00) | 60 min
